Re: Our File No. : 582-818
Your File No. : PM 641

Dear Dr. Inskeep:

Pursuant to our recent telephone conversation, enclosed is a copy of the Citation of Additional Prior Art submitted in the Patent Office making U.S. patent No. 3,613,693 of record in the above-identified patent application.

As discussed, it was felt that a more complete statement of prior art would be redundant inasmuch as the pertinent prior art is already set forth in the Specification itself.

We will be keeping you advised of all further developments in this case and until then, we remain,

Sincerely yours,

Morris N. Reinisch
